HDPE Sewer Installation

Achen-Gardner Construction is installing more than 9,200 LF of single and double barrel HDPE force main as part of our **West Anthem Lift Station No. 76, Force Main, and Water Main DBB** project for the City of Phoenix. This project also includes the installation of a new lift station, wet well, manhole, masonry wall, and more than 3,400 LF of water line. [Visit our website for more project information and photos.](#)

Roadway Improvements Project Update

Our concrete crews are hard at work on our **Roadway Improvements Related to the Ritz-Carlton CMAR** project for the Town of Paradise Valley. We completed construction of a concrete storm drain junction structure and we are finishing the median curb on the north side of Lincoln Drive. [Visit our website for more project information, photos, and video of the curb pour.](#)

Staying Safe

Achen-Gardner remains committed to the safety and well-being of our employee-owners, partners, and the public while we work to ensure our projects are completed on schedule. We are adhering to social distancing guidelines, wearing masks, and conducting many of our meetings online. We are following updates from the CDC and OSHA and improving our workplace sanitation and safety measures accordingly. We will continue to update our clients, colleagues, and friends as the situation evolves.

Water Line in Scottsdale

We are installing more than 3,200 LF of water line (16", 12", and 6") on Scottsdale Road from Princess Boulevard to Mayo Boulevard, including five manholes for air release valves and camera inspection. We carefully excavated and installed a segment of the water line under an existing double barrel box culvert, avoiding the need for a jack and bore. This work was completed as part of our **Citywide Water Resources Infrastructure JOC** contract for the City of Scottsdale. [Visit our website for more project information and photos.](#)

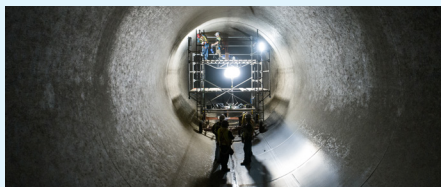

Conference Presentations Going Virtual

Achen-Gardner Construction employee-owners will be participating in several virtual presentations about our projects:

- **THE LARGEST SEGMENTED STEEL PIPELINE IN ARIZONA GETS AN UPGRADE**
Speakers: Tamara Miller, Central Arizona Project / Aric Smith, Achen-Gardner Construction
This presentation will be available on-demand through the AZ Water Conference website and live on Tuesday, August 4 as part of the AZ APWA Free Virtual Summer Series.
- **A TRENCHLESS REHABILITATION MILESTONE - FUSIBLE PVC SLIPLINING IN PEORIA**
Speakers: Chris Sterne, City of Peoria / Brian Froelich, Achen-Gardner Construction / Rick Fradenburg, Dibble Engineering
This presentation will be available on-demand through the AZ Water Conference website and live on Tuesday, August 4th as part of the AZ APWA Free Virtual Summer Series.
- **LESSONS LEARNED FROM PIMA COUNTY RWRD'S FIRST PROGRESSIVE DESIGN BUILD**
Speakers: David Badger, Pima County RWRD / Geoff Tucker, Achen-Gardner Construction / Stefanie Thrush, EEC
This presentation will be available on-demand through the AZ Water Conference website and live on Thursday, August 20th as part of the AZ APWA Free Virtual Summer Series.

Visit the [AZ Water Conference](#) website and the [AZ APWA Free Virtual Summer Series](#) website for more information.
