## 25TH ANNIVERSARY FACT

Achen-Gardner Construction is an industry leader in completing projects that require a qualifications-based selection. These projects utilize the Construction Manager at Risk (CMAR), Design-Build, and Job Order Contracting delivery methods. Our first qualifications-based project was the 79th Ave. Park and Ride Upgrade CMAR for the City of Phoenix. This project was constructed in 2002 and included the installation of 350 prefabricated parking shade canopies, construction of a security substation, and installation of new lighting and video surveillance systems.
